

CRTI-06-0236TA

Lead Agency: RCMP

Federal Partner: DRDC, CNSC, NRC, CSIS

Private Sector Partners: AMITA Corporation

Other Partners: INTERPOL, Carleton HOTLab

Start-End: 2007-2009

Funds: \$1.39 Million

Objectives:

Development of an IED incident database capturing relevant information for use in both international and domestic contexts.

The creation of interoperability between civilian and military responders as well as international partners.

Outputs: An enhanced interoperable version of a civilian law enforcement/police oriented system and an IED-oriented version that will have added capabilities to function in hostile environments.

Impact: Will align civilian and military agency sources of CBRNE threats for the first time.
